

Planning Commission August 19, 2015

Present: Margret Philips, Kim Richards, Karen Reilly, Horace Duke, Matt Rouleau

Guest: Bonnie Pembuton, Philip Demke

The meeting was called to order at 7:00 pm.

The guest Bonnie and Philip, were there to voice their concerns with the stone shed business on George Road. Their concerns are Noise and dust from the operation and that on occasions his equipment gets on their property; they are both neighbors of the business. The board reminded them that without zoning or development regulations we could not intervene, and there was nothing we could do. We suggested they review any covenant they have in the development and if they chose they could also voice their concerns with the select board.

The board continues to work on the town plan. Although the commission has been meeting every week it's apparent that we will need additional time to complete the new plan. The board will request an extension until January 2016.

The meeting adjourned at 8:20 pm
