

The following are Williamstown ATV trails committee communications received by committee chair Rama Schneider via email from 10/31 through 11/05/19.

I am for the ATV trails in Williamstown.

Thank you

Tina Carminati

Yes. I want Atv trails in Williamstown.

Thank you

Tom Hood

This is Jason and Whitney Jones of 908 Gilbert road and we r 100% for an atv club. Thank u

My family would like to see ATVs to be able to ride in Williamstown thank you....

(per email header) James Verdon

Hi this is Whitney Jones of 908 Gilbert rd and we would love to have an are club in williamstown. Ty

Good Afternoon

As a Williamstown tax payer I would like to see our town offer access to town roads for our new four wheeler club. This will bring more people to our few town businesses. I have CC what I believe is a member of the club to also let them know my Wife and I would love to see access to our Road Page RD and Berlin pond RD. Thank you for Letting our select board know that we support ATV's in Williamstown.

Brent Kidder

We fully support the ordinance and hope that Williamstown will pass the ATV trails system in Williamstown.

Regards
Eric Chaloux

Good morning, I wanted to extend my vote to support of the proposed Williamstown ATV ordinance.

I hope to see the town push this through!!!

Thanks a loyal Williamstown Resident,
Raegan Chaloux

My family has been in this town for many of generations, and I have learned that the majority of the people in this town that are for the trails, spend numerous hours volunteering in our community and when someone in the town is going thru a difficult time these same people that are in favor of these trails are the first ones donating, whether it be time and energy or money towards these causes. Now with that being said the economic growth that this is going to bring to the community is going to be great. It might even bring more businesses to the area and as a community isn't that what we want to do is grow together and prosper? Now I understand the concern of having these ATV's driving and using the roads and the possibility of the roads be overly used. I do believe though that some sort of committee had access to funds to help out with road usage to help maintain the roads and possibly make these roads better than what they are now, as our hard working road crews have so many things to do on a daily basis and lets be honest only so many hours in a day. I think this would be a great addition to the community and even engage the younger generation to get out and enjoy the outdoors and spend time with friends and family and build new friendships along the way and may even intrigue them to want to learn more about small engine repairs and mechanical work, it may also open our youths minds to road management care. Thank you for taking the time to read my email and my thoughts about the ATV trails coming to our town.

Sean McCarthy

To whom it may concern, a trail system through Williamstown and to joining towns would bring money in to our town, member dues, fuel, food, groceries and so much more when people come to our town and see what we are and have to offer. Sled season makes the town go nuts why not keep it going all season and keep the trails and life alive. Could even possibly open opportunities for some one to open a small engine shop or a shop focused on recreational vehicles. What's the concern ? Noise ? That will keep em off the main roads and in the woods on designated trails!
